JARSHIN J S

Web Developer Intern Aspirant | CSE (IoT)

jarshinjohnson@gmail.com | Tamil Nadu, India | GitHub: github.com/jarshinjs| LinkedIn: linkedin.com/in/jarshinjs

PROFESSIONAL SUMMARY

Computer Science and Engineering (IoT) student with practical experience developing responsive web applications using HTML, CSS, JavaScript, Python, and Django. Skilled in building secure, user-friendly interfaces with real-time interactivity, user authentication, and mobile-first design. Demonstrated ability to deliver complete projects independently, from planning through deployment, using Git and GitHub for version control. Seeking a Web Developer internship to contribute technical skills and grow within a professional development team.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), Python

Frameworks & Libraries: Django, Bootstrap (basic)

Developer Tools: Git, GitHub, VS Code

Concepts: Responsive Web Design, User Authentication, REST API basics, Password Security, Cybersecurity Fundamentals (IoT), Cross-browser Compatibility

PROJECTS

Platform to Purpose *HTML5 | CSS3 | JavaScript | Python | Django*

- Developed a full-stack community web platform connecting users with social resources and support opportunities, serving diverse user groups.
- Engineered Python/Django backend with dynamic page routing and data handling; integrated JavaScript for real-time front-end interactions.
- Implemented responsive, mobile-first UI with a focus on web accessibility (WCAG guidelines) and intuitive navigation, improving usability across devices.
- Managed complete development lifecycle using Git and GitHub, including branching, commits, and version history.

Password Generator and Strength Checker *HTML5 | CSS3 | JavaScript*

- Built a client-side web application that generates secure, customizable passwords with user-defined length, character sets, and complexity rules.
- Implemented a real-time password strength evaluation engine in JavaScript, analysing entropy, character diversity, and common vulnerability patterns.
- Designed a visual strength meter with live colour-coded feedback, improving user experience and promoting secure password practices.

Personal Developer Portfolio *HTML5 | CSS3 | JavaScript*

- Designed and deployed a personal portfolio website showcasing 3+ projects, technical skills, and contact information for internship outreach.
- Built with semantic HTML5 and CSS3 (Flexbox/Grid), achieving mobile-first responsive design and fast page load times.
- Integrated a functional contact form and smooth scroll navigation, demonstrating attention to UI/UX detail and production-ready coding standards.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering (Internet of Things) *2025 – Present*

Sri Krishna College of Engineering and Technology, Coimbatore. | Currently Pursuing (Expected Graduation: 2029)

- Relevant Coursework: Data Structures and Algorithms, Web Technologies, Object-Oriented Programming, Database Management Systems, Computer Networks, IoT Security

ACHIEVEMENTS AND CERTIFICATIONS

- Participant, SamHita Hackathon — MIT and Anna University affiliated college; built and presented a functional web prototype under time-constrained, competitive conditions.

SOFT SKILLS

Problem Solving | Team Collaboration | Attention to Detail | Quick Learner | Written and Verbal Communication | Time Management | Self-Motivated

INTERESTS

Web Development and UI/UX Design | Cybersecurity and IoT Security | Open-Source Contribution | Competitive Hackathons | Exploring Modern JavaScript Frameworks
